BOTTOM STAMP CODES

ZIPPO (1933 - 1954) | ZIPPO (1955 - 1979) | Zippo (1980 - Present)

As with most collectibles, the date of manufacture of a Zippo lighter often affects its value. Valuable information on the bottom of every Zippo lighter can help you determine its date of manufacture. Most lighters fabricated between 1933 and 1957 can be identified by style and model and the patent or patent-pending marks.

Starting in the mid 50s, date codes were stamped on the bottom. The original purpose was for quality control. The date codes have since become an invaluable tool for Zippo collectors.

The appearance of the word "Zippo" in the bottom stamp provides another clue to dating. There have been three major changes, as shown in inset. From 1933 to the mid 50s the word Zippo was stamped in block letters.

The Zippo script logo was developed in the late 40s and was phased-in on the lighter bottom stamp around 1955. In the late 70s the logo was redesigned. It was incorporated into the bottom stamp in 1980.

① On some lighters, this number was stamped in error, should have been Patent 2032695.

② Zippo records indicate an overlap of bottom stamp configurations from 1949-1957.

③ Some lighters produced between 1955-57 were date coded; however, specifics remain unclear.

④ In 1979 an error was made in the date code. One of the slash marks was removed from the left of the Zippo trademark instead of being removed from the right; thus the code read: / //. This date code error was corrected within the same year to read: // /

⑤ Effective July 1, 1986 the dot and slash system was replaced by year / month code. Year is coded by Roman numeral; letter designates month (A=January, B=February, etc.)

⑥ Beginning in 2001, the Roman numerals indicating the year were replaced with numbers corresponding to the last digits of the year of manufacture.

⑦ The first Zippo BLU® butane cases were made in 2005. The date code is the same format as regular windproof lighters.

**Code is subject to change without notice.*

Slim Lighter Identification Codes

Slim lighters were first introduced in 1956, with a flat bottom and no date code. The first markings were added in 1957 and overlapped into 1958. From 1957-1965 the code configuration on the slim lighters differed from the regular lighters. From 1966 on, the configuration has been the same.

Windy Collectible of the Year 2013
Limited Edition 00001 – 35.000
2.004.124 #1935 · 115,00 €

COLLECTIBLE OF THE YEAR 2013

Windy has been one of Zippo's most beloved icons since she was introduced in 1937, illustrating the new windproof lighter in Zippo's first national advertisement. Since that time, she has been depicted in scores of advertisements, numerous promotional pieces, and hundreds of Zippo lighter designs from all over the world.

The 2013 Collectible of the Year celebrates Windy with a whisper-thin emblem, reminiscent of Zippo's early metallique process, on a classic 1935 Replica lighter. Limited to only 35,000 pieces worldwide, a distinctive bottom stamp introduces the seal that authenticates this as a genuine Zippo Limited Edition. Each lighter is packaged in an attractive gift box with an embossed, foil-stamped lid.

THE WORLD FAMOUS ZIPPO

GUARANTEE

Any Zippo pocket lighter, when returned to our repair clinic, will be put in first class mechanical condition free of charge, for we have yet to charge a cent for the repair of a Zippo pocket lighter, regardless of age or condition. The finish, however, is not guaranteed. This guarantee is additional to your statutory rights under national law.

PIPE LIGHTER COLLECTION

Pipe Lighter

The Zippo pipe lighter is made to the same high quality standards as a Zippo windproof lighter, but designed for the special needs of pipe smokers. The ingenious design encases the flame in metal, allowing it to be drawn directly into the pipe without bending over the side. The result: perfectly lit tobacco, with no damage to the pipe. The insert of a Zippo pipe lighter is exactly the same size as the standard windproof lighter insert, allowing pipe smokers who have a treasured Zippo windproof lighter the option of replacing the insert to continue carrying the favorite case.

ICED PROCESS

Ribbon Candy Iced
2.003.263 #28353 · 46,95 €

Zippo's Iced process highlights multi-faceted engraving layered with a translucent powder coat to give the illusion of looking through a thin sheet of ice. Design is on both front and reverse surface of the lighter. May be imprinted over Iced surface for a truly unique look.

Early in 2010, Zippo began to laser the finish off the hinge of powder coated lighters. Although implemented primarily for cosmetic reasons, lasering the hinge area will provide another indicator of a genuine Zippo lighter. Several years ago, we began lasering the powder coat off the bottom of matte lighters to enable clearer view of the bottom stamp identifying the lighter as a genuine Zippo lighter. Similar to this enhancement, a lasered hinge barrel will provide further assurance that the unit is a genuine Zippo lighter.

1935 Replica

The 1935 lighter, one-eighth inch shorter than subsequent models and manufacted for less than three years, has been replicated in stunning detail featuring the original look and elements that made this lighter one of the most collectible in Zippo's history. Like the original, the 1935 Replica features a three-barrel outside hinge joining the lid and bottom, an open hollow rivet that secures flint wheel to inside unit, a flat bottom case, and slashes on the opposite corners of the face and back surfaces. A distinctive bright brushed chrome finish and unique bottom stamp identify the 1935 Replica. The 1935 lighter was the last of Zippo lighter production to feature the hinge on the outside of the case. Coincidentally, 1935 was the first year that company logos were applied to the face of the Zippo lighter, leading to the creation of the Zippo ad specialty division, later known as Zippo promotional products.

ARMOR CASE

Bright-cut engraving produces dazzling facets, resulting in the dimensional look of a beautiful emblem directly on the surface of these Zippo Armor lighters.

Enhanced with a personalization panel and a gold-flashed inside unit, these extraordinary lighters were the centerpiece of the Zippo Collection 2014. These lighters were created by Grant Duke, a fourth generation member of the Zippo family.
